

## **Rose (Miniature), Amber Sunblaze**

***Rosa 'Meiludoca'***

Height: 15 inches

Spread: 15 inches

Sunlight: ○

Hardiness Zone: 4b

Group/Class: Miniature Rose

### **Description:**

This variety is a strong, bushy plant with golden-orange, cup shaped double blooms that are long lasting and durable; creates a huge impact in small spaces and containers; excellent disease resistance

### **Ornamental Features**

Rose (Miniature), Amber Sunblaze features showy orange flowers with gold overtones and buttery yellow eyes at the ends of the branches from late spring to mid fall. The flowers are excellent for cutting. It has dark green deciduous foliage. The glossy oval compound leaves do not develop any appreciable fall color.

### **Landscape Attributes**

Rose (Miniature), Amber Sunblaze is a multi-stemmed deciduous shrub with an upright spreading habit of growth. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This shrub will require occasional maintenance and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. It is a good choice for attracting bees to your yard. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Spiny

Rose (Miniature), Amber Sunblaze is recommended for the following landscape applications;

- Accent
- Mass Planting
- Border Edging
- General Garden Use
- Groundcover
- Container Planting

### **Planting & Growing**

Rose (Miniature), Amber Sunblaze will grow to be about 15 inches tall at maturity, with a spread of 15 inches. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front. It grows at a medium rate, and under ideal conditions can be expected to live for approximately 30 years.

This shrub should only be grown in full sunlight. It does best in average to evenly moist conditions, but will not tolerate standing water. This plant should be periodically fertilized throughout the active growing season with a specially-formulated acidic fertilizer. It is not particular as to soil type or pH. It is highly tolerant of urban pollution and will even thrive in inner city environments. This particular variety is an interspecific hybrid.

Rose (Miniature), Amber Sunblaze makes a fine choice for the outdoor landscape, but it is also well-suited for use in outdoor pots and containers. It is often used as a 'filler' in the 'spiller-thriller-filler' container combination, providing a mass of flowers against which the larger thriller plants stand out. Note that when grown in a container, it may not perform exactly as indicated on the tag - this is to be expected. Also note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden.
