

## **Rose (Groundcover), Nitty Gritty White**

*Rosa 'BOKRARUISP'*

Height: 3 feet

Spread: 4 feet

Sunlight: 

Hardiness Zone: 4b

Group/Class: Groundcover Rose

### **Description:**

An abundance of white blossoms with yellow centers are presented on this truly easy-care groundcover rose; self-cleaning, with excellent disease resistance; outstanding summer color for the landscape or garden

### **Ornamental Features**

Rose (Groundcover), Nitty Gritty White is covered in stunning white flowers with yellow eyes at the ends of the branches from late spring to mid fall. The flowers are excellent for cutting. It has dark green deciduous foliage. The glossy oval compound leaves do not develop any appreciable fall color.

### **Landscape Attributes**

Rose (Groundcover), Nitty Gritty White is a dense multi-stemmed deciduous shrub with an upright spreading habit of growth. Its average texture blends into the landscape, but can be balanced by one or two finer or coarser trees or shrubs for an effective composition.

This shrub will require occasional maintenance and upkeep, and is best pruned in late winter once the threat of extreme cold has passed. It is a good choice for attracting bees to your yard. Gardeners should be aware of the following characteristic(s) that may warrant special consideration;

- Spiny

Rose (Groundcover), Nitty Gritty White is recommended for the following landscape applications;

- Accent
- Mass Planting
- General Garden Use
- Groundcover
- Container Planting

### **Planting & Growing**

Rose (Groundcover), Nitty Gritty White will grow to be about 3 feet tall at maturity, with a spread of 4 feet. It tends to fill out right to the ground and therefore doesn't necessarily require facer plants in front. It grows at a medium rate, and under ideal conditions can be expected to live for approximately 20 years.

This shrub should only be grown in full sunlight. It does best in average to evenly moist conditions, but will not tolerate standing water. This plant should be periodically fertilized throughout the active growing season with a specially-formulated acidic fertilizer. It is not particular as to soil type or pH. It is somewhat tolerant of urban pollution. This particular variety is an interspecific hybrid.

Rose (Groundcover), Nitty Gritty White makes a fine choice for the outdoor landscape, but it is also well-suited for use in outdoor pots and containers. With its upright habit of growth, it is best suited for use as a 'thriller' in the 'spiller-thriller-filler' container combination; plant it near the center of the pot, surrounded by smaller plants and those that spill over the edges. It is even sizeable enough that it can be grown alone in a suitable container. Note that when grown in a container, it may not perform exactly as indicated on the tag - this is to be expected. Also note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden.
